About VICTER

VICTER is published by VTAC for Year 10 students who are considering applying for tertiary study in 2018.

It is written to help Year 10 students make choices about their Year 11 and 12 studies so that they can plan their pathways towards tertiary study.

VICTER provides information about entrance requirements for courses commencing in 2018 in universities, TAFE providers and independent tertiary colleges that participate in the VTAC system. Each institution that accepts applications and offers through VTAC has listed the courses it plans to offer in 2018 (as at 30 June 2015). For each course that has prerequisites, the institution lists the prerequisites and the selection criteria.

Courses without prerequisites are listed under each institution. There are hundreds of courses in the VTAC system without prerequisites.

This online publication will be updated annually so students can access the most up to date course prerequisites. To stay in touch with amendments, students are also encouraged to subscribe to one of VTAC’s social media platforms such as Facebook, Twitter or the blog.

Prerequisites cannot be made harder after 31 October 2015. However changes that simplify prerequisites without disadvantaging students can continue to be made until June 2017.

Where to find course information
Information for courses at institutions where applications are through VTAC is available in section one under courses and institutions.

VICTER also lists institutions that administer their own applications and offers but promote their courses through VTAC. These institutions are listed in section two under courses and institutions.

An online interactive version of VICTER is also available through VTAC CourseSearch.

CourseSearch: VICTER prerequisites
As part of VTAC CourseSearch, there is now a capability for year 10 and 11 students to create different study programs with prerequisites for VICTERs 2018 and 2017 respectively.

The program allows individuals to create mock VCE programs to see which courses they will and will not be eligible to apply for in two years.

Major study index
Refer to the major studies index available on page xx of this publication. It will provide you with a list of subject areas and corresponding courses.

Some hints to help you choose your VCE study program
The important thing to remember is that the study choices you make now are not binding for life and, like most of us, you will probably make several different work and career choices throughout your life.

Study choice is a personal decision and requires you to think carefully about what you are good at, what you are interested in and what studies help keep your options open.

Do:
• think about what interests you and what you like doing
• check out the VCE studies your school is offering
• talk with your careers teacher and/or VCE coordinator
• keep your options open
• visit VTAC CourseSearch to start researching the types of courses you are interested in
• attend Open Days.

Don’t:
• panic if you have no idea what studies to take up
• choose studies you don’t like just because you think doing those studies will help you get a good ATAR—your ATAR represents your performance across all of your studies
• choose studies based on their scaling. There is no point selecting a study that you struggle with simply because it has traditionally been scaled up. You will get higher scores in studies that you like and are good at, even after scaling.

For further information about study selection and scaling refer to Choice or the VTAC website

Note:
Information is correct at the time of publication. Any changes will be notified to schools in the VTAC Gazette, in this online publication and through VTAC’s blog and Facebook pages. Please note that the inclusion of course information in this document does not guarantee:
• the course will be available in 2018
• the course will be available at the published campus
• the course name will remain the same.

Enquiries about any information in this publication should be directed to the Deputy Director Information and Publishing Services, VTAC.

Entrance requirements

This section provides information about tertiary entrance requirements and the ATAR.

To be offered a place in a course you must:

- meet the minimum tertiary entrance requirements for Victoria
- meet any VCE prerequisites (or equivalent) for the course, and
- be selected in competition with other eligible applicants.

Minimum tertiary entrance requirements

Minimum tertiary entrance requirements for general entry are outlined below.

Other qualifications

Applicants may satisfy minimum tertiary entrance requirements on the basis of other qualifications. These may include completion of:

- the International Baccalaureate (IB) Diploma
- overseas qualifications deemed comparable by VTAC to the required Victorian qualifications.

Victoria uses the home state rule for determining minimum tertiary entrance requirements for interstate applicants. The rule states:

- If an applicant meets minimum tertiary entrance requirements for all institutions in their home state, they will meet minimum tertiary entrance requirements for all interstate Australian institutions.

Note: For the purposes of ATAR calculation and university admission under the home state rule, Northern Territory and South Australia are combined and treated as a single entity. The eligibility requirements applied to students presenting the SACE will be applied to students presenting the NTCE.

VTAC automatically assesses these qualifications as part of the application process and advises appropriate course authorities of the status of any such applicants.

Refer to the VTAC website to view a list of interstate study equivalences.

Course requirements

A number of courses have requirements additional to the minimum tertiary entrance requirements.

These may be in the form of:

- Prerequisite studies and
- Selection criteria

If you do not meet the prerequisite(s) for a course you may not be selected for that course, however your results will still be provided to the course selection authorities of each course to which you have applied.

Prerequisites

Units 1 and 2 prerequisites

If a course specifies Units 1 and 2 of a study as a prerequisite, this means a satisfactory result must be awarded in both Units 1 and 2.

Units 3 and 4 prerequisites

If a course specifies prerequisites for a study at Units 3 and 4, this means that a satisfactory result must be awarded in both Units 3 and 4. In addition to successfully completing the stated study, Year 12 students will also be required to meet the stated minimum study score. This study score will be listed in the VTAC Guide 2018.

Selection requirements

In addition to the requirements outlined above, many courses have selection requirements such as a folio, an interview, performance audition or completion of a questionnaire.

Details of course selection requirements are not contained in this publication, but will be used in course entries for 2018 (available in July 2017). This is because selection requirements often include requirements that must be met on particular dates for the year concerned. As a guide however, you might like to refer to the current course entries using CourseSearch on the VTAC website.

How do institutions select applicants?

Approximately 50% of the courses accepting applications and offers through VTAC use a range of criteria that may include the ATAR as well as other factors such as interview, folio presentations, pre-selection tests, additional forms and so on.

---

**Vocational Education and Training (VET)**

Certificate II and Certificate III

There are no set minimum tertiary entrance requirements for entry to Certificate II and III courses in VIC TER 2018, however institutional and course requirements still apply.

Certificate IV, Diploma, Advanced Diploma

For Year 12 students, the minimum tertiary entrance requirement for VET courses available at TAFE providers and independent tertiary colleges is:

- Satisfactory completion of any of the qualifications listed for Higher Education courses or satisfactory equivalent senior secondary completion such as Senior VCAL (Victorian Certificate of Applied Learning) or literacy requirements as stated in VET Training Packages/curriculum (training.gov.au) will meet minimum tertiary entrance requirements for VET courses

VET courses are displayed with this colour:

- Vocational Education and Training Qualification

**Higher education**

For higher education courses, the minimum tertiary entrance requirement at universities, independent tertiary colleges and TAFE providers is:

The satisfactory completion of both the VCE and Units 3 and 4 English (any) or equivalent.

Note: Some institutions may accept applicants with equivalent senior secondary completion such as Senior VCAL—check with individual institutions for their entrance requirements. Higher education courses are displayed with this colour:

- Higher Education Qualification

#VCE VET qualifications, including block credit granted for VET or Further Education training (where permitted), may contribute to the award of the VCE.

*Any of the four VCE English studies—English, English (EAL), Literature or English Language—satisfies the requirement for English (any), however Units 3 and 4 must be completed in sequence and in the same calendar year (unless granted interrupted study status by the VCAA in the studies concerned).

VCE = Victorian Certificate of Education

VCAL = Victorian Certificate of Applied Learning
Australian Tertiary Admission Rank (ATAR)

What is the ATAR?
The ATAR is an overall percentile rank reflecting a student’s comparative Year 12 achievement compared to the relevant age group in a given year. The ATAR allows tertiary institutions to competitively rank students who have completed different combinations of VCE studies. It is calculated by VTAC solely for use by institutions for admission to tertiary studies.

The ATAR is reported as a number between 0.00 and 99.95 with increments of 0.05. A student with an ATAR of 75.00 has achieved VCE results above 75% of the population of the relevant age group.

Eligibility for an ATAR
To qualify for an ATAR a student must:

• qualify for the VCE, and
• achieve study scores in at least four permissible Unit 3 and 4 VCE studies, including one from the English group.

Who receives an ATAR?
If you have applied for tertiary entry through VTAC and paid your processing fee, you will receive a statement containing your ATAR from VTAC at the same time that you receive study scores from the VCAA.

VTAC calculates an ATAR for all currently enrolled students who have qualified for an ATAR, however only those who apply through VTAC for tertiary courses and paid their VTAC processing fees receive a printed ATAR statement.

For students who return to study with a previously achieved ATAR and are awarded at least one study score or complete a non-scored VET, a new ATAR will be calculated. The new ATAR is awarded only if it is higher than the one previously achieved. Ranking for courses will be based on the overall highest ATAR achieved.

Calculation of the ATAR
Your ATAR is developed from an aggregate produced by adding your results for up to six studies as follows:

• the VTAC scaled study score in one of English, English (EAL), Literature or English Language
• the three next highest VTAC scaled study scores permissible (which together with the English study make the “primary four”)
• 10% of any fifth and sixth permissible studies that are available.

If you have more than six results, the six permissible results that give the highest ATAR are used.

Studies used in the calculation of the ATAR may be taken over any number of years, however there are some restrictions around time taken to complete individual VCE scored studies (generally one calendar year without special exceptions being granted).

You are then ranked in order of these aggregates—the highest rank being 99.95 and then decreasing in steps of 0.05. The group of students with the highest aggregates will be assigned the highest rank of 99.95. ATARs below 30.00 are reported as ‘less than 30’ on printed statements.

Notional ATARs
Notional ATARs are used to rank applicants who either have previous Victorian Year 12 results (other than VCE results) or another qualification obtained in Victoria such as the International Baccalaureate. In the case of previous Victorian Year 12 results, a Notional ATAR is calculated using the same rules as for the ATAR. For these qualifications, different methods are used whilst still adhering to the same underlying principles of aggregation. Further information may be obtained from VTAC.

Only Victorian IB students who sit the GAT and are VTAC applicants will be issued with a Notional ATAR statement.

Interstate use of ATARs
Victorian VCE applicants applying for tertiary courses in other Australian states will be considered on the basis of their Victorian ATAR. An ATAR of 50 is the same in all states.

Scaling study scores for the ATAR
In calculating study scores, the VCAA does not determine any measure of overall performance in the VCE, but rather the performance of each student in each individual study. In order to facilitate selection, institutions require an overall measure of the performance of students undertaking the VCE in all studies in all combinations.

Before the scores of different VCE studies can be added together for the ATAR, they need to be scaled to take account of the different levels of competition in different studies.

Once the study scores have been scaled, they are called VTAC Scaled Study Scores. It is the VTAC Scaled Study Scores that are used to calculate the ATAR. VCE studies are always scaled in the year in which they were undertaken. This may not necessarily be in the year in which you receive your ATAR.

By using VTAC scaled study scores, fair comparisons can be made of students’ achievements over all their studies, regardless of the studies they have taken. Because of this, students should freely choose studies they like or are good at without worrying about their ATAR.

Many students believe that to achieve their best possible ATAR they need to choose studies that are traditionally scaled up. This is not true and may even work against you. If you choose a study that you are not very good at simply because it may be scaled up, the study score you receive will be a lot lower than what you could expect in a study you are good at and that interests you. While your score will be scaled up, it is unlikely that your VTAC scaled study score would be any higher than if you had chosen a more suitable study, even one that may be scaled down.

The way to ensure that you achieve your best ATAR is to choose your studies according to what you are interested in, what you are good at, and what studies you need for future study. Don’t forget to keep in mind that you must qualify for the primary four. The calculation of the ATAR guarantees that all studies are treated equally and provides you with a common score for tertiary selection across Australia.

Studies with additional scaling
Mathematics
VCE Mathematics studies are designed to cater for students of differing abilities and interests. Specialist Mathematics is the most difficult, followed by Mathematical Methods (CAS) and then by Further Mathematics.
To ensure that students undertaking the more difficult mathematics studies are not disadvantaged, all three mathematics studies are scaled against each other as well as being scaled against all other studies. The higher of the two resulting scales is used for each of the mathematics studies.

Languages
As a result of government policy to encourage the study of languages, each Language is adjusted up by adding up to five to the initial VTAC scaled study score average. This adjustment is not uniform. For study scores at or close to 30, the adjustment is 5, but the adjustment decreases as the study score moves away from 30.

Studies used for the ATAR
Subject to the rules and restrictions that are described in the sections that follow, the studies that can be used for the ATAR are:

- All VCE Unit 3 and 4 sequences
- Vocational Education and Training (VET) Programs with Unit 3 and 4 sequences, and
- Approved Higher Education studies.

VET Programs
VET programs that contribute to the VCE are used in the calculation of the ATAR as follows:

VCE VET Unit 3 and 4 sequences with scored assessment:
- study scores are scaled and may be included in the calculation of the ATAR aggregate
- if a scored assessment is available and you decide not to take it, no increment will be available.

VCE VET Unit 3 and 4 sequences with no scored assessment available:
- the study may be counted as fifth and/or sixth study.

If you have completed two VET Unit 3 and 4 sequences deemed by the VCAA to be equivalent because of significant duplication, only one result can contribute to the ATAR. If one sequence has scored assessment available, then your result in the scored sequence will be used in the calculation of your ATAR. If both sequences have scored assessment, then the higher result will be used. If neither sequence has scored assessment, one VET increment will be available.

Restriction on use of VET results within an Industry Area
In cases where no scorable sequence in an industry area has been attempted, two VET or VFE increments from that area can contribute to the ATAR.

Where a single scorable VCE VET sequence has been attempted in an industry area, that result will be the first possible industry area contributor to the ATAR, and two increments can be added by non-scorable VET or VFE sequences in the same industry area.

Where two scorable non-equivalent VCE VET sequences have been attempted in an industry area, then those results will be the first possible industry area contributors to the ATAR, and at most one increment can be added by non-scorable VET or VFE sequences in the same industry area.

Where more than two scorable non-equivalent VCE VET sequences have been attempted in an industry area, then only those results will be possible industry area contributors to the ATAR, with at most two being permissible in the primary four and at most three being permissible in the ATAR.

It should be noted that VET sequences within the Information Technology industry area are also considered to be in the IT Studies study area, whilst VET sequences within the Music Industry area are also considered to be in the Music Studies study area.

Restriction on use of VFE Block Credit in the ATAR calculation
VFE results can only be used in the calculation of an ATAR if there are fewer than 6 VCE or VCE VET studies available. If there are 6 or more VCE or VCE VET studies available, a VFE block credit result cannot be used.

Returning students
For an ATAR calculated up until and including 2014, if a student was previously eligible for an ATAR, then new VFE results can only contribute to the ATAR when fewer than six VCE and VCE VET results are available.

Approved Higher Education studies in schools
The VCAA provides for very able students to have an opportunity to undertake an approved Higher Education study as part of the VCE. Such studies are recognised as Higher Education studies contributing to completion of the VCE.

If you are undertaking such a study, it may count as an increment (fifth or sixth study) in the ATAR.

Upon satisfactory completion an increment may be for the Higher Education study based on performance in the HE units:
- if the average mark over all the HE units awarded is at least 90, the Higher Education increment will be 5.0.
- if the average mark over all the HE units awarded is at least 80 but less than 90, the Higher Education increment will be 4.5.
- if the average mark over all the HE units awarded is at least 70 but less than 80, the Higher Education increment will be 4.0.
- if the average mark over all the HE units awarded is at least 60 but less than 70, the Higher Education increment will be 3.5.
- if the average mark over all the HE units awarded is at least 50 but less than 60, the Higher Education increment will be 3.0.
- if the average mark over all the HE units awarded is less than 50, then no Higher Education increment is available.

Restrictions on use of approved Higher Education studies in schools
If your ATAR incorporates a Higher Education increment from any of the study areas of mathematics, English, languages, music, history or computer science/information technology then at most two VTAC scaled study scores and/or VET increments from that study area may be used.

All VCAA designated rules for Higher Education studies must be satisfied prior to a Higher Education study increment being available. Check the VCAA “VCE and VCAL Administrative Handbook” and current VCAA “Bulletin VCE, VCAL and VET” for the latest information.

The VCAA Handbook states that only one Higher Education Study may count towards satisfactory completion of the VCE. Similarly, only one Higher Education Study may contribute to your ATAR.

Restrictions on subject use in the ATAR calculation
Only one subject from within each of the following combinations can be used in the best six (that is, in the calculation of the ATAR):
- English/English as an Additional Language (EAL)
- Chinese (FL)/Chinese (SL)/Chinese (SL Advanced)
• Indonesian (FL)/Indonesian (SL)
• Japanese (FL)/Japanese (SL)
• Korean (FL)/Korean (SL)
• Mathematical Methods/Mathematical Methods (CAS).

In each of the study areas of English, mathematics, history, Contemporary Australian studies, information technology, languages and music:

• at most two results can contribute to the primary four
• at most three results can contribute to the ATAR, be they VCE results, Higher Education study results, or VET results.

The studies included in these study areas are those listed in the appropriate study area groupings (see page xx).

Notes:
The restrictions listed here are for studies completed after 2007. Additional restrictions may apply where earlier studies have been completed. Contact VTAC for further information.

The VET industry area restrictions and VFE Block Credit restrictions also apply.
### Higher education

| Courses | Higher education courses provide professional qualifications with an emphasis on theory and the development of transferable skills. Some courses are vocational, leading to careers in clearly identified areas (e.g. Accounting) while others are 'generalist' with no particular vocational skills component. Although courses vary, many higher education courses include formal lectures and tutorials. |
| Length | The majority of higher education courses with applications through VTAC are bachelor degrees and a few associate degrees. A basic undergraduate degree usually requires a minimum of three to four years full-time study. Many courses such as combined degrees and industry-based learning (work experience degrees are longer). For further information about higher education courses through VTAC see CourseSearch on the VTAC website. |

### Vocational Education Training (VET) courses

| Courses | VET courses provide professional and para-professional qualifications with an emphasis on practical skills and vocational pathways that lead into higher level training, higher education or employment. A wide variety of study areas are offered; each one involving training for expertise in a particular skill area. VET qualifications are designed for close consultation with industry to ensure the training is current and relevant for industry requirements. Class sizes are usually small allowing for individual attention. These courses may be work based or involve a work placement. VET courses available through VTAC or directly include certificate II, certificate III, certificate IV, diplomas and advanced diplomas. |
| Length | Diplomas and advanced diplomas are normally equivalent to two years full-time study. Some courses offer one year accelerated programs. Refer to the individual course entries in the VTAC Guide 2016, under title and length, for specific details. Certificate IV can be (but is not always) equivalent to one year full-time study. For general VET course enquiries telephone the TAFE and Training line on 131 823. |

### Teaching styles

| University | University teaching styles vary, however they generally include formal lectures, tutorials, seminars, practical workshops and/or laboratory classes and work experience placements. |
| TAFE | TAFE teaching styles involve small classes, individual attention and diverse programs. They are devised to ensure that they are highly accessible, provide a range of pathways and ensure practical learning while bridging the gap between work and education. |
| Independent Tertiary Colleges | Independent tertiary colleges offer a diverse range of teaching styles including lectures, workshops, laboratory classes, seminars, small group tutorials, practical work placements, industry visits and self-paced virtual classrooms. Courses may lead to employment or further study at degree or postgraduate level. A number of these courses offer credit transfer or arrangements with other institutions. |
About selection

VTAC does not select applicants or influence decisions made by institutions.
Selection is the responsibility of each institution’s course selection authorities. When considering your application, course authorities take into account published institutional and course entrance requirements, prerequisite studies and methods such as interviews, folios and supplementary forms.

For a list of the methods used for selection to a course, see Selection criteria under the course information in CourseSearch on the VTAC website.

Selection criteria

Approximately 50% of all courses use a range of criteria that may include the ATAR as well as other factors such as interview, folio presentations, pre-selection tests, additional forms and so on. Within this mix of criteria there may be different requirements for Year 12 applicants and non-year 12 applicants.

Information about the ATAR and factors other than the ATAR are published in the selection criteria within each course entry. See selection criteria under the course information in CourseSearch on the VTAC website for details about the subject bonus. These factors are used in addition to the prerequisites and selection requirements in course entries to rank applicants and fill the balance of the course quota.

Courses with prerequisites available in 2018 and courses without prerequisites

**Academy of Design Australia**

All applicants for Academy courses are required to attend an individual interview and present a folio of recent creative work. While not expected to be of professional quality, the folio should demonstrate a range of creative and technical skills relevant to the course(s) applied for. Interviews are an informal, friendly discussion about the applicant's work, ambitions and interests. The interview panel consists of no more than two people who will ask questions relating to the Academy's Selection Criteria.

The interview panel seeks to identify potential students who are self-motivated and show initiative and the ability to successfully develop knowledge and skills in one of the disciplines offered at the Academy.

To assist applicants to present their work in the best way possible the Academy offers Folio Presentation workshops. For further information refer to [www.academyofdesign.edu.au/search/node/folio](http://www.academyofdesign.edu.au/search/node/folio)

**Academy of Interactive Entertainment**

For all AIE Advanced Diploma programs, there is no prerequisite. Applicants will be required to attend an interview in person on campus, online or over the phone if the applicant is located in Victoria’s regional areas or interstate. For the Bachelor of Games and Virtual Worlds (Programming), applicants need to have demonstrated completion of Year 12 or equivalent with a minimum pass grade in English and mathematics (which includes Calculus) or an approved bridging program and/or skills assessment in mathematics and English.

Game Art and Screen: Folio should demonstrate your creativity and art skills. Examples can include sketches, paintings, video clips, animation, multimedia, sculpture, photography, life drawing and graphic design.

Software Development: Folio should demonstrate your aptitude for computer programming. You can include actual code samples in the folio or any compiled working applications, such as Visual Basic projects, Flash/ActionScript files, custom databases, iPhone or Java applications, multimedia projects or game models.

Students will need to demonstrate their enthusiasm and potential to complete the program to a high standard. Areas covered at the interview include communication and teamwork skills, personal motivation, educational history, long-term career aspirations and an awareness of the program objectives. Where it is necessary to collect additional evidence regarding the selection criteria, students might be requested to participate in an interview which may include a written or oral skills assessment test.

Box Hill Institute

General Principle of Admission Policy
Many TAFE certificate IV courses have no prerequisites. Some diploma/advanced diploma courses will require the completion of pathway courses first, such as a certificate III or IV in the same course area.

The eligibility requirement for most degree courses is a study score of at least 20 in VCE English (any) Units 3 & 4. In addition some degree courses also require studies in VCE Units 3 & 4 Mathematics, Chemistry or Art.

Box Hill Institute encourages all applicants who do not satisfy course entry requirements to undertake some TAFE pathway or preparatory studies.

Folios, Auditions & Interviews
Some courses do require applicants to meet folio, audition or interview requirements. Other courses may simply require applicants to attend an information session, or submit a supplementary application form.

Auditions: Applicants are usually required to demonstrate their proficiency as a musician/artist.

Folios: The folio should usually contain work demonstrating the applicant’s conceptual, creative and technical ability. See our online Guide to Folio Presentation, at http://www.bhtafe.edu.au/courses/CI/Pages/auditions-interviews.aspx

Interviews: Applicants are usually asked a series of questions relating to their suitability for the course, demonstration of clear career goals, citing of any relevant industry experience, and their general aptitude for the course.

General Principle of Admission Policy

Information about prerequisites and selection criteria can be found at www.holmesglen.edu.au or by calling 03 9564 1555.

For degree programs, the eligibility requirement is successful completion of VCE. Some courses may require studies in VCE Units 3 and 4 Mathematics, VCE Units 3 and 4 English, folio submissions or an interview. Pathways through TAFE studies are available to applicants who do not satisfy entry requirements for a degree. Students who successfully complete a Diploma or Advanced Diploma in a related field may receive up to 8 to 12 credits for a degree. Special entry requirements may apply to mature age applicants.

Monash College

A Monash College Diploma provides specialised preparation for direct entry to first or second year of specific Monash University degrees. Each Diploma has been developed in consultation with Monash University faculties and academic staff to prepare international students for success. Monash College offers five Diplomas:

- Art & Design
- Arts
- Business
- Engineering
- Science

The Diploma program consists of two parts - Part 1 and Part 2 - each of eight months duration. Each eight month period is divided into two trimesters (except Engineering Part 2 which is delivered over three trimesters).

International students are eligible for entry into Part 1 or Part 2 of the Diploma programs, as dependant on existing qualifications and results. Domestic students are eligible for entry into all Part 2 Diploma Programs and Part 1 of the Diploma of Art and Design, as dependant on existing qualifications and results. There are three intakes throughout the year for maximum flexibility: February, June and October.

Photography Studies College www.psc.edu.au

PSC is a dual sector provider offering both the Higher Education Bachelor of Photography course with majors in commercial photography, photojournalism and art photography and the VET sector Advanced Diploma of Photography course.

Applicants to PSC are selected on the basis of meeting minimum tertiary entrance requirements attending an interview and presenting a folio that contains between 8-15 well-presented final images. These should demonstrate the applicant’s aptitude for photography and potential.

At interview applicants will be given the opportunity to demonstrate their engagement with photography and showcase their skills, interest, strengths and personal motivation for study. Applicants should come to the interview prepared to discuss and answer questions about their folio, ideas, processes, inspirations and career aspirations.

Selection requirements
In addition to the general entrance requirements, some courses may have other requirements including (but not limited to):

- Form/Kit
- Interview
- Folio/Folio presentation
- Course specific or other admissions test
- Personal statement

The purpose is for an applicant to show that they have a good understanding of, and a strong desire to study the course they have applied for. Detailed information about selection requirements will be available in the individual course entry in the VTAC Guide.

Detail of Folio/Preparation requirements
Where applicants are required to submit a folio, generally the folio should comprise 10 to 30 pieces of original personal work. The folio could contain a variety of personal work in art, design or media which demonstrates the interests, creative thinking and conceptual, design and technical skills of the applicant. Examples of work may include are drawings, paintings, graphic designs, photographs, digital images, models, sculpture, audio or video, scripting, short stories and/or 2D and 3D flash animation. For design courses the folio presentation is an opportunity to present a folio of your work. Applicants may be asked to discuss their pieces of work, outlining why they chose a particular topic, what they were trying to achieve and the process undertaken to achieve the final product. In some cases selection staff may also ask about designers or areas of design that interest or inspire. Folio presentations are conducted in a friendly and supportive manner and are normally expected to take approximately 15 to 20 minutes. Applicants will be notified directly by RMIT as to whether or not they have been invited for a folio presentation. This notification will also include details of the folio presentation, and any further information.

Detail of Interview/Preparation requirements
Interviews are part of the selection process for some courses. The interview process is an opportunity for applicants to demonstrate their understanding, ability and motivation for the course for which they are applying. During the interview, applicants present to a panel consisting of selection staff from the course to which they have applied. Applicants are asked questions about their work and interests in line with the selection criteria. Interviews are conducted in a friendly and supportive manner and are normally expected to take approximately 15 to 20 minutes.

Applicants will be notified directly by RMIT as to whether or not they have been invited for an interview. This notification will also include details of the interview and any further information.

Swinburne University of Technology

General and Special Principles of Selection
Swinburne University of Technology has general principles of selection, which apply for entry to all undergraduate courses, while other courses have specific selection criteria. Information and selection criteria will be outlined in the Selection criteria and Subject bonus sections of the course entries on the VTAC website.

Note: a study score of at least 30 in English (ESL) or 25 in English other than ESL is a minimum prerequisite for most Swinburne undergraduate courses.

For details about Vocational Education (VE) course requirements please visit www.swinburne.edu.au/future

Scholarships
Swinburne offers a range of Vice-Chancellor’s and Dean’s Scholarships. For details refer to the relevant VTAC Guide.

University of Melbourne (The)

The University of Melbourne has principles of selection and accompanying Academic Board Resolutions, which apply to individual undergraduate and graduate courses. These can be viewed at: www.futurestudents.unimelb.edu.au/admissions/entry-requirements

All courses, except Arts (Extended) and Science (Extended), Diploma in General Studies, Fine Arts (all specialisations), Music and Music (Chancellor’s Scholars Program), use the Australian Tertiary Admission Rank (ATAR) and a two-stage selection process and have agreed to the selection of a significant proportion of applicants from below the Clearly-in rank. Consideration below the Clearly-in rank will be given to applicants eligible for University of Melbourne special entry schemes (all courses) and applicants with relevant work experience (Agriculture and Urban Horticulture).

Detail of folio/audition preparation:
Selection into the University of Melbourne’s Fine Arts and Music courses is talent-based. Each specialisation within Fine Arts requires an audition/interview and additional requirements. The selection process for our Music courses includes an audition and a musicianship test. Full details of the extra requirements for our Fine Arts and Music courses can be found at: www.coursesearch.unimelb.edu.au

Preparatory subjects for specific majors:
Commerce applicants intending to major in actuarial studies or complete an engineering sequence are encouraged to complete Units 3 and 4 Specialist Mathematics. Commerce applicants intending to undertake an engineering sequence in electrical or mechanical systems are also encouraged to complete Units 3 and 4 Physics.

Environments applicants intending to major in construction, environmental science, spatial systems, engineering systems or property are encouraged to complete Units 3 and 4 Mathematical Methods.

Science applicants intending to major in animal health and disease (the shortest pathway to the Doctor of Veterinary Medicine) are encouraged to complete Units 3 and 4 Chemistry.

Victoria University is the University of Opportunity. We are renowned for empowering our diverse community of students to grow their capabilities and transform their lives.

VU is one of Australia’s largest and most culturally diverse education institutions, with 10 campuses across the CBD and Melbourne’s west, as well as Sydney, offering courses to more than 44,000 students. We are one of the few universities in Australia to offer both vocational training (VE/TAFE) and higher education courses.

VU’s seven higher education colleges offer undergraduate, masters and PhD degrees. Victoria University Institute of Technology (VUIT) delivers VU’s vocational education and training (TAFE) courses, including trade pre-apprenticeships and apprenticeships, traineeships and many other certificate and diploma courses.

Many of VU’s certificate and diploma courses provide opportunities for students to pathway into higher education courses. VCE graduates who did not get the ATAR required to study the higher education degree that they were hoping to, often enrol in a VU vocational education and training course and then pathway into the degree of their choice with credits for studies completed. For more information visit vu.edu.au/pathways.

**Selection**

Applicants are selected according to merit based on satisfaction of all admission requirements and demonstrated capacity to complete their chosen course/s. Course admission requirements are provided on VU’s website (vu.edu.au/courses) or online via VTAC (www.vtac.edu.au).

Applicants who do not satisfy published entry requirements are encouraged to undertake our tertiary preparation studies and/or foundation level study.

**Dip. Into Degree**

VU’s Dip. into Degree courses provide a streamlined pathway from a one-year diploma straight into the second year of a Bachelor degree, with full credit for the first year of the degree.

The program is for students who want to undertake a degree course but may not be fully prepared, perhaps because they lack certain prerequisites. Applicants need to satisfy certain ATAR and prerequisite requirements. For more information visit vu.edu.au/dip-into-degree.

**West+5 Scheme**

Under our West+5 Scheme, VU may adjust upwards the aggregate score of applicants completing Year 12 at schools in Melbourne’s west which includes the municipalities of Brimbank, Hobsons Bay, Hume, Maribyrnong, Melton, Moonee Valley and Wyndham. For more information visit vu.edu.au/access.

**Detail of Interview/Preparation Requirements**

Applicants who are required to attend an interview will need to demonstrate a range of attributes such as, personal motivation, relevant experience or previous study, an understanding of the course and potential employment opportunities.

**Folios**

Applicants who are required to submit a folio should include work that represents their ideas and abilities, shows originality, innovation, imagination, experimentation and competence in the basic skills for their intended course.
